PROFILE

Frontend engineer with **4+ years** shipping production **React, TypeScript and React Native** products where reliability is non-negotiable: payment checkouts, transaction reporting, tax-compliant e-invoicing, POS integrations and event-ticketing marketplaces. Raised payment success to **97%**, cut page loads by **40%** and reduced frontend infrastructure spend by **25%**. Owns features end to end, from Figma handoff through CI/CD to the App Store, using AI agent workflows to ship faster.

EXPERIENCE

Frontend Engineer · Xpress Payments Limited CURRENT

Apr 2022 – Present

Lagos, Nigeria · Payments, POS & billing infrastructure

- Raised payment success rate to **97%** across 300+ daily transactions by rebuilding critical checkout flows in React/TypeScript and eliminating race conditions that had caused 1 in 8 transactions to fail silently.
- Cut average page load time by **40%** on PayXpress through route-level code splitting and memoised API-heavy components, lifting checkout completion on low-bandwidth mobile networks.
- Reduced frontend infrastructure spend by **25%** with CDN-first delivery and automated GitHub Actions deployments, removing manual release bottlenecks.
- Cut code review time from **2 days to under 6 hours** and lifted release velocity by 15% via PR templates, lint gates and Storybook documentation.
- Reached **98% cross-browser compatibility** (Chrome, Firefox, Safari, Edge) with a shared component library and visual regression tests, ending recurring QA rework.

Frontend & Mobile Engineer (Contract) · Eventflutter CURRENT

Mar 2026 – Present

Events, ticketing & service-marketplace platform · Web, admin and mobile

▶ Google Play · • App Store

- Build and ship the **Eventflutter mobile app in React Native (Expo)**, live on both the Apple App Store and Google Play.
- Contribute to an **Nx monorepo of 7 apps** (marketing site, core app, auth, pro dashboard, ticket scanner, agent portal, design-system preview) on React 19, Vite, Tailwind, TanStack Query and Zustand, with Vitest and Playwright coverage.
- Built the **admin console** across 28 feature modules, including escrow, disputes, KYC review, payouts, ticketing, job marketplace and CMS, with real-time updates over Socket.IO.

CORE SKILLS

LANGUAGES
TypeScript, JavaScript (ES6+), HTML5, CSS3

WEB & MOBILE
React, React Native, Expo, Next.js, Redux Toolkit, Zustand, TanStack Query

UI & DESIGN SYSTEMS
Tailwind CSS, shadcn/ui, Ant Design, SASS, Styled Components, Storybook, Figma handoff

PERFORMANCE & QUALITY
Code splitting, lazy loading, memoisation, Vitest, Playwright, visual regression, cross-browser

INTEGRATION & SECURITY
REST, WebSockets, payment gateways, multi-provider orchestration, OWASP, geofencing

AI AUTOMATION
Claude Code & GitHub Copilot agent workflows, custom agent skills (CI monitoring, code generation, Figma-to-code), AGENTS.md standards, AI-readable design-system docs

DELIVERY
Nx, Vite, Webpack, Git, Docker, GitHub Actions, CI/CD, CDN, Vercel, Jira, Bitbucket, Agile/Scrum

EDUCATION

B.Sc.
Les Cours Sonou University
Cotonou, Benin Republic

LANGUAGES

English
Fluent

EXPERIENCE (CONTINUED)

Frontend Engineer (Contract) · Tax9ja
Mar 2026 – Present

Nigerian tax-compliance platform for employees, freelancers and SMEs

- Built role-based web apps for **employees, freelancers and SMEs**, plus auth, developer-portal and public website, in an Nx monorepo with shared UI, hooks and domain libraries.
- Delivered PAYE, CIT and WHT estimators, guided tax filing, KYC onboarding, payslip and document management, with light/dark theming and mobile-first layouts.
- Enforced quality with Vitest unit tests and Playwright end-to-end suites per app.

SELECTED PROJECTS · XPRESS PAYMENTS

Xpress Report Portal
Jun 2026 – Aug 2026

Transaction reporting & analytics

- Built a centralised reporting platform in **under 3 months** that brings transactions from every Xpress product into one portal, giving operations teams and merchants a single place to monitor, manage and analyse.
- Gave teams self-service access to the data behind day-to-day operational decisions.

React · TypeScript · TanStack Query · Recharts

E-Invoicing Platform
Mar 2026 – Jul 2026

Tax compliance · Access Point Provider (APP)

- Built an e-invoicing platform that generates **Nigeria Revenue Service (NRS)-compliant invoices**, letting business customers meet national e-invoicing requirements directly through Xpress as an Access Point Provider.

React · Zustand · Tailwind

POS Aggregator Geofencing Middleware
Jul 2026

Security & compliance

- Engineered frontend geofencing middleware that verifies terminal location before requests reach **NIBSS**, restricting transactions to approved locations and enabling secure NIBSS connectivity through the Xpress platform.

HRMS Platform
Nov 2022 – Dec 2024

Internal enterprise system

- Built a full HR management system from scratch (payroll automation, applicant tracking, leave, appraisals, KPI dashboards) used across multiple departments, cutting manual HR processing time by **~60%**.
- Shipped **12 major releases over two years with zero rollbacks**.

Xpress Biller Service (VAS Reseller Portal)
Feb 2022 – Dec 2022

Multi-tenant platform

- Built a multi-tenant reseller portal orchestrating real-time APIs across **6 service providers**, with a self-service reporting dashboard that cut manual reconciliation effort for finance teams by **70%**.

PayXpress (Bill Payments & Transfers)
Feb 2022 – May 2022

Mobile-first consumer app

- Built the end-to-end frontend, integrating **4 third-party payment APIs** with real-time WebSocket status updates that reduced failed-transfer support tickets by **35%**.

MORE BUILDS

Eventflutter Mobile
React Native · Expo · iOS & Android
Production app published on the App Store and Google Play.

Prometheus Design System
Nx · Storybook · Tailwind
40+ independently versioned, tree-shakeable packages with primitive and domain-aware components, with machine-readable docs for AI coding agents.

Airvend E-Cashier
React · Redux Toolkit · Ant Design
Multi-role teller and supervisor approval workflows, audit reports with Excel export, encrypted storage and idle timeout, integrated with the XpressPayments auth APIs.

Auraspin Booth
Next.js 16 · React 19 · Postgres
Marketing and booking-enquiry site for a Lagos photobooth business, with server-side email notifications and typed environment handling.

WHAT I BRING

Ownership
Figma handoff to production, CI/CD and monitoring.

Money-grade reliability
Race conditions, retries and real-time status handled up front.

Web and mobile
One engineer across React, Next.js and Expo.

Team multiplier
Design systems, review standards and docs that speed everyone up.
